

Inspection Test of Operational Setting

Currently empty. A requirements team member needs to write this, to address the following points:

- a. Summarize each of the departments who participated in the initial interviews.
- b. Summarize the similarities among the departments.
- c. Summarize the differences among the departments.
- d. Do a version of the latest feature matrix, with a column for each department, where each column has the -2 through 2 priority value for that column's department.
