Inspection Test of Phase 3a Release

Individual Slide Inspections:

Slide Title	Status	Remarks	Assigned
Scheduler GUI Walkthrough	FIX	needs styling and a bit of wordsmithing	Fisher
Log In	FIX	Change "along the left" to "along the top"	Fisher
Select a Term	FIX	Here and the remainder, the left nav frame is never explained, nor does it change highlight meaningfully with slide changes. It should be, or removed entirely. I vote for the latter.	Fisher, may others
Generating Schedule	FIX	When we left on Wed, I thought we decided to use CHEM, not IME for all examples. Did this decision change? Also: titles inconsistent, overall width too wide, particularly if wrap is disabled in blurb text.	Fisher
Scheduling Conflict	FIX	I think this should have a border of some form, as in fact, should all the windows. Next link is inconsistent with index. Title inconsistent with index.	Fisher, ?

View Blank Schedule	FIX	Not properly linked in Prev/Next chain. Not clear what user did to make it come up.	Fisher, ?
View Generated Schedule	FIX	I still think the proliferation of colors is distracting, but I will defer if a substantial majority disagree. Not properly linked in Prev/Next chain. Not clear what user did to make it come up.	Fisher, ?
View Instructor Schedule	FIX	Not properly labeled.	Fisher, ?
View Course Schedule	FIX	Here also I am distracted by a lack of meaning to the colors. I don't think random color selection is helpful, which judgment is backed up by UI research.	Fisher, ?
View Department Schedule	FIX	I don't see this as different from the 'ScheduleView-Filled.html' slide. If Tempus is department-specific, why do I need something called "department view". Maybe this is just nomenclature, but in any case, I need to know if there's a difference between this and the 'ScheduleView-Filled.html' slide.	Fisher
View Schedule Department, Hovering	DONE	Content alone is good, needs to be made consistent with all other slides, which I'll take as a global pattern issue.	Fisher

Filters View	FIX	I know we're not doing full action/result scenarios here, but I would very much like to know how the user gets here	Fisher
Filters View, Selected Days	FIX	Ditto.	Fisher
Filters View, Selected Instructors	FIX	Ditto.	Fisher
Instructor Management	FIX	Instructor information should be expanded to agree with current model. How it's edited should be mentioned.	Fisher
Add Instructor	FIX	Describe user action to get here (easy).	Fisher
Add Instructor, Filled In	DONE	I like the empty/filled-in transition. Would like to see more of this style throughout.	Fisher
Edit Instructor	FIX	I like the empty/filled-in transition. Would like to see more of this style throughout.	Fisher
Remove Instructor	FIX	OK as stand-alone, but needs to be made consistent with course and room management.	Fisher
Instructor Course Preferences	FIX	I'd like to see the signal color scheme used. I'd like to see another screen with one of the menus pulled down.	Fisher
Instructor Time Preferences	FIX	Needs a filled-in version, with color-scheme in use.	Fisher
Instructor Distance Preference	FIX	Needs at least one more short sentence explaining how it affects scheduling.	Fisher
Instructor Overview	FIX	404 not found	Fisher, ?

Manage Courses	FIX	Blurb needs clarification regarding this screen as "starting point for various actions ... on the data".	Fisher, ?
Add Course, Filled In	FIX	Inconsistency with instructor management needs to be reconciled.	Fisher, ?
Edit Course	FIX	Inconsistency with instructor management needs to be reconciled.	Fisher, ?
Remove Course	FIX	Inconsistency with instructor management needs to be reconciled.	Fisher, ?
Manage Courses, Adding Course	FIX	Inconsistency with instructor management needs to be reconciled.	Fisher, ?
Manage Rooms	FIX	In terms of interface style, this is consistent with course management. In terms of look, it's inconsistent, most particular in terms of image, and therefore font size, as well as font color. Such inconsistencies are not a huge deal, but they I they are entirely unnecessary, and potentially distracting.	Fisher, ?
Add Room	FIX	See general room management remark.	Fisher, ?
Remove Room	FIX	See general room management remark.	Fisher, ?
Room Availability	FIX	See general room management remark.	Fisher, ?

Overall Presentation Inspection:

Slide Title	Status	Remarks	Assigned
Story Line *Consistent Look*	DONE FIX	If we're still TBD with the logo, we should leave it out all together. If the objective of the banner is to instill brand identification, I don't think it works well at all with "Logo TBD". Benefit of removing entire 'Logo ... Tempus ...' banner is simplification and improved focus on functionality. Slide names in index need to match titles in slides. E.g., "Generating Schedule" versus Schedule Generation Font sizes are distractingly different sizes. Banner-forced width is too wide for 17'' display screen.	Fisher and ?

Consistent Content	FIX	Major problem: dialog-centric versus table-centric management of instructors versus courses is not consistent. Side nav bar is not well integated, and inconsistent in places -- 'Manage' at bottom versus 'Export Schedule, Configuration' Clerical: I would very much prefer present tense, not future.	Fisher
